

THE WASA

21 Dec 1906 HEBER CITY, UTAH, FR

STATE WAVES.

A fifteen-year-old bell boy was held p at Ogden the other night and obbled of five cents.

A 20-months old boy of Mr. and Mrs. Woerkom, Jr., of Ogden fell into a tub of hot water Saturday and was badly scalded that it died a short time after.

The Bullion-Beek Tunnel mine of Little is coming to the front with a Christmas dividend of two cents, amounting to \$20,000 in addition to its regular dividend of \$40,000.

The body of Ex-Senator Arthur Brown, who was shot and mortally wounded by Mrs. Anna M. Bradley at the Raleigh hotel in Washington, D. C., on December 8th; arrived in Salt Lake City Tuesday night and was buried in Mt. Olivet cemetery Wednesday afternoon.

Frank Mazza, a convict in the Utah penitentiary serving a ten year sentence for murder, has been examined as to his sanity and was pronounced insane. He has been sent to the State Mental Hospital for treatment and if he recovers before his sentence expires he will be returned to the pen.

There is a serious outbreak of smallpox among the children of Monroe, Sevier County, and Dr. F. E. Clark, who was sent down by the State Board of Health to investigate, reports that the cause of the spread is due to negligence on the part of those in charge. An effort is now being made by the local authorities with the hope of stamping out the disease.

F. A. Gregory, night foreman in the roundhouse, and H. Irving, a boilermaker were shot and perhaps fatally wounded at the R. G. W. shops at Helper, where they were at work, Tuesday night. The shooting was done by a drunken Italian by the name of Tony Soubano who had come there looking for trouble and been ordered out of the place a few minutes before.

Washakie's Letter.

[Correspondence to Garland Globe.]
Mr. Globe:—I write you these lines to letter for please. I hope print this then I pretty quick write more. We are been some folks sickness now Johnnie Timmoch little boy he been sickness. Two more boys been sick, Indians been all back from Garland and Riverside yet. They topping beats down them country. Joe Gibbs he been some Indians out work poll tack. They have hauling some gravel to roads down by school house. Mr. Jim Kennard he teach there. All little folks been went at school. Much students—Maybe 30. Tommy fiboots all flies for school this winter. people in Cash Valley been come to Bishop George Ward's and feeding cattle there with his hay.

Snake Creek Mines.

Snake creek canyon has been prospected for precious metals almost from the earliest days of mining in this state and long before the discovery of the great Ontario or the building of Park City. Some very rich ore has been taken out along the north slope of the canyon in many places, the Bonanza Flat has passed through several mining excitements on account of the discoveries that have been made there and claims on that flat are considered to be valuable goldlugs. All miners agree that there must be large bodies of valuable ore in that mountain but no true lusher veins carrying paying values have as yet been discovered, on the Wasatch county slope, unless it be on the Bonanza Flat.

The most of the territory described above is located and much of it is patented and the groups beginning at the head of the canyon are as follows: The Mountain Lake Mining company has about 40 patented claims extending from the Park City slope along the ridge at the head of Snake Creek and over into American Fork canyon and covering a large tract of ground in the Big Cottonwood canyon. This company has recently purchased the Steamboat property in the head of Snake Creek consisting of about 30 patented claims. Next comes the Lions, Wide West, Heber City, Big Four, Balsom Grove, Bogan property, consisting of 13 patented claims, Lone Pine, Southern Tier, with a large block of patented claims, St. Louis Vasser, Wolverine, Success, the Lateral property, Bou der Basin. The last named groupe has a long list of patented claims that reach over onto the Bonanza Flat joining the property of the great Daly Judge and Daly West mines.

We are reliably informed that there is a gigantic scheme being discussed by some of the leading mine owners of that district to develop all the properties mentioned above, if there is, which seems to be the opinion of all mining men familiar with the situation, anything there to develop. It is this, to combine all these properties in one great company for the purpose and run a tunnel from the neighborhood of Springer's ranch, near the mouth of the canyon, straight through the mountain toward Alta City in Little Cottonwood canyon, make the tunnel large enough to be double tracked. The Snake Creek stream would generate ample electricity to run all the machinery and cars and light the mines and in addition all the needed light and power for the people of this valley.

From this great underground highway tunnels could be run to each of the properties mentioned and many others. The mouth of the main tunnel would be low enough to be of easy access by the rail road and would tap the big mines of Park city and Alta a

the Steamboat. Snake Creek consisting of 13 patented claims, Lone Pine, Southern Tier, with a large block of patented claims, St. Louis Vasser, Wolverine, Success, the Lateral property, Bou der Basin. The last named groupe has a long list of patented claims that reach over onto the Bonanza Flat joining the property of the great Daly Judge and Daly West mines.

We are reliably informed that there is a gigantic scheme being discussed by some of the leading mine owners of that district to develop all the properties mentioned above, if there is, which seems to be the opinion of all mining men familiar with the situation, anything there to develop. It is this, to combine all these properties in one great company for the purpose and run a tunnel from the neighborhood of Springer's ranch, near the mouth of the canyon, straight through the mountain toward Alta City in Little Cottonwood canyon, make the tunnel large enough to be double tracked. The Snake Creek stream would generate ample electricity to run all the machinery and cars and light the mines and in addition all the needed light and power for the people of this valley.

From this great underground highway tunnels could be run to each of the properties mentioned and many others. The mouth of the main tunnel would be low enough to be of easy access by the rail road and would tap the big mines of Park city and Alta a great depth. This scheme, stupendous as it may seem is possible and we are told that those men who are proposing it have the energy and money to see it put through if they decide to make the attempt.

A fresh line of McDonald's celebrated candles and mixed nuts at WASATCH DRUG STORE

The Beesley Marble and Granite Works of Provo have just received a large assortment of marble and granite monuments. If you are going to get a monument, it will certainly be worth your while to take a run down to see them. You can then see just what you are getting, and at the same time save money.

Long Tennessee Fight.

For twenty years W. L. Rawls, of Bell, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Buckley's Arnica Salve to the sore surface: this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at Heber Pharmacy.

Estray Notice.

I have in my possession the following described animals which, if not claimed and taken away, will be sold at public auction to the highest cash bidder at the Town Pound, in the Town of Charleston, on the 22 day of Dec., 1906, at the hour of 2 p. m.

One spotted red and white steer about 2 years old, about one year old, square crop off left
